Morrison on Randall's Tariff Bill.

SYNOPSIS OF HIS REPORT.

More American Boats Chased Away From Canadian Fishing Waters.

[*Special to the Herald by the Associated Press.*]

WASHINGTON, July 10.—Representative Morrison's report on the Randall bill says: The bill proposes to remove all internal taxes on tobacco, snuff and cigars, amounting, on the basis of last year's receipts to $28,000,000; on apple, peach and grape brandy to $1,400,000, on spirits for use in the arts variously estimated at from $7,000,000 to $15,000,000 and believed to be at least $10,000,000, making in the aggregate of internal revenue taxes to be removed $39,400,000 In an appendix of the estimates submitted with the bill as part of it, the reduction of revenue from the customs or tariff taxes to be effected by it is estimated at $8,570,576, making the aggregate of the proposed reduction $48,000,000. The bill to so reduce excessive revenues and a statement that there were no excessive revenues to be reduced, were submitted to the House by the same member in the same half month. If the statement that the revenues will not exceed the appropriations and estimates with the bill, including the loss of receipts from brandy and from spirits for use in the arts may be credited, the enactment of the bill into a law will leave the government $48,000,000 short. In view of its effect and purpose, so far as it has a purpose, affecting the revenues of the government, it might as well be left to that neglect which no doubt it was expected to receive, but in the hope that even so unwise a message may open the way for a majority of the House to redeem its pledges by the removal and reduction of unnecessary and therefore unjust taxes, your committee report the bill back with the recommendation that it do not pass. The bill changes the duty or rate of tax on articles yielding less than one-tenth $17,000,000 of $181,000,000 received from customs in 1885, it increases those which yielded $11,600,000, and decreases or removes those which yielded $5,000,000 on the basis of imports for 1885. Besides articles added to the free list the duty or import tax is reduced on castor oil, castor beans, starch, iron, and steel rails, beams, girders and other articles yielding $3,300,000 of revenue, and the revenue is estimated in the bill to fall off in proportion to the reduced rate of taxation recommended. The tax on all clothing, whether of silk, linen, cotton or woolen and other woolen goods, on tin plates, cotton ties and other articles, yielding as already stated, $11,600,000 is increased and the revenue is estimated to fall off in a still greater proportion than on the articles upon which the rate of tax is reduced. Apparently the bill was presented in the belief that a necessity existed for reduction, and that the desired end is reached both through higher and lower taxes. The estimates with the bill are made on this arbitrary assumption and are entitled to no respect whatever. The report then proceeds to consider the Randall bill in detail and says: The estimates and intended effect of the bill are believed to make plain the methods by which taxation on the basis of imposts and revenue receipts in 1885 would yield $14,000,000 of revenue. The introduction of this bill would be considered the first avowed attempt in our legislative history to empty the treasury by the use of the taxing power. If this measure may be supposed to have any purpose relating to a system of finance it points to direct taxation, for when internal revenue taxes are taken off and custom house taxes are lain on so high the people get buried, the monopolists benefit and the Treasury nothing. New sources of supply will be inevitable. In treating of the proposed reduction and the removal of internal revenue taxes, Morrison says they are most lightly borne and cannot be relinquished in the face of $4,000,000,000 of war debt yet unpaid. The report then says we are overtaken by and in the midst of an industrial paralysis. A million of workmen are idle for want of work to do, and capital, in still greater proportion than unemployed labor, lies dead or unproductive. The only plague which afflicts us is idleness. What we need is profitable employment. There is an apparent puny effort in the bill through an increase of taxation to shut out goods from abroad that they may be made at home. If this effort was so successful as to prevent the importation of all manufactures we would have direct taxation and three-quarters of a million men yet unemployed. Their profitable employment amounts to nearly the difference between what is popularly known as good and hard times. The removal of the tobacco tax will furnish no new employment; neither its smoke nor its juices will turn the wheel-shaft or spindle. Wood, wool, hemp, salt and cheap food for toiling men lie at the foundation of the great and successful industries. To free these from taxes will cheapen production without lowering the prices of labor, and our idle men may then be enabled to make something which may be sold profitably abroad, and with which we are overstocked at home.

The Fishing Dispute.

WASHINGTON, July 10.—Representative Boutelle received a dispatch to-day from Eastport, Maine, stating that on Friday night the American boats at St. Andrews, N. B., after herring, to be canned as sardines, were driven away by the Dominion cruiser Middleton, and the announcement made that no American boats are to be allowed to take herring in Dominion waters for any purpose. Boutelle at once reported the facts to the State Department with an earnest request that the matter receive immediate attention. He is more than ever convinced that the most effective way to deal with the Canadians in regard to fisheries is to largely increase duties on foreign fish and thus make the provincials pay roundly for the privilege of selling in our market.

Fishing Vessel Released.

HALIFAX, N. S., July 10.—The schooner City Point, which was seized at Shelburne has been ordered released by the authorities at Ottawa, United States Consul, General Sheldon, having to-day deposited the amount of fine imposed, $400, with the collector of customs, Ross. The C. B. Harrington and Geo. W. Cushing, the other vessels arrested at Shelburne are expected to be released at once under similar conditions. The agreement is that the sum deposited shall be refunded if the owners of the vessels can establish that the detentions were not legally effected.

Teachers in Convention.

TOPEKA, Kansas, July 10.—The second day's session of the Executive Council of the National Teachers' Association took place to-day with two hundred teachers in attendance. The meeting was devoted principally to the discussion of papers. Several hundred teachers arrived this evening and thirty carloads are expected to-morrow. The National Association will convene to-morrow evening in the Grand Opera House, when the freedom of the city will be extended by the Mayor.

Weavers on a Strike.

PHILADELPHIA, July 10.—Seven hundred rug weavers employed by John Bromley & Son, carpet and rug manufacturers, went on a strike to-day because the firm refused to discharge non-union weavers employed in the mill. The strike involves about 1200 men and women as the other departments of the mill will be obliged to stop work.

CONGRESSIONAL.

SENATE.

WASHINGTON, July 10.—Hoar, from the Committee on Pensions, submitted a report on twenty-three pension bills vetoed by the President, and recommending that the bills be passed notwithstanding the President's objections. After a vigorous debate Kenna moved that the report, the views of the minority and all papers be referred to the Committee on Pensions for consideration by that committee. Adopted.

HOUSE.

WASHINGTON, D. C., July 10.—Morrison of Illinois from the Committee of Ways and Means reported back adversely the Randall tariff bill. Referred to the Committee of the Whole.

Breckenridge, of Kentucky, from the same committee reported back adversely the bill repealing the tobacco tax. Referred to the Committee of the Whole.

The speaker laid before the House a message from the President announcing his disapproval of the bill granting a pension to Daniel B. Ross. Referred to the Committee on Invalid Pensions.

Conger, of Iowa, from the Committee on Invalid Pensions submitted reports on the President's vetoes of bills granting pensions to Elizabeth Luce and Catherine McCarthy. Ordered printed.

Mr. Morrison, of Illinois, from the Committee on Rules, reported the following resolution:

Resolved, That Tuesday the 13th of July be set apart for the consideration of such business as may be presented by the Committee on Ways and Means, not to include any bill raising the revenue, and if any bill shall be under consideration and not disposed of when the House adjourns on said day, the consideration of said bill shall be continued from day to day until disposed of. After a lengthy debate the resolution was adopted, yeas 184, nays 34.

GERMAN NOTES.

Emperor William Grows Young. Ludwig's Jewels.

BERLIN, July 10.—Emperor William's sojourn at Ems is notable, inasmuch that he improves in health and aspect. He is able to take longer walks than formerly, and has an elastic step and healthy color.

An inventory is being taken of the jewels left by the late King Ludwig, of Bavaria. In his chateau at Berg there were found coffers filled with diamonds, rubies, pearls and watches and chains amounting to a fortune.

The Pope Awakens to the Irish Question.

ROME, July 10.—In view of the results of the English elections the Pope yesterday requested the Congregation of Extraordinary Ecclesiastical Affairs to examine attentively the whole Irish question, in order that he might determine upon the course to be pursued by the Irish clergy in certain contingencies.

Downs' Dilemma.

BOSTON, July 10.—Yesterday a young woman appeared before the Grand Jury of Suffolk county and swore that Rev. W. W. Downs, who figured prominently in a recent divorce case, is the father of her illegitimate child. The Grand Jury returned an indictment against Downs this morning, and a warrant has been issued for his arrest.

Hanged by a Mob.

MORGAN, Texas, July 10.—While the preliminary trial of Sidney Davis, colored, was in progress here this morning a mob of five hundred men overpowered the court and took Davis out and hanged him. He outraged one of the most respectable women in Bosque county. He confessed his guilt.

Cholera Returns.

ROME, July 10.—Cholera returns for the day: Brindisi, 135 new cases, 46 deaths; Latriana, 32 new cases, 15 deaths; Fontona, 59 new cases, 21 deaths; San Vita, 12 new cases, 3 deaths; Venice, 1 case, 2 deaths; Cedegra, 8 new cases, 1 death.

Appropriation for the Bartholdi Statue.

WASHINGTON, July 10.—The Senate Committee on Appropriations has inserted a paragraph in the Sundry Civil bill appropriating $56,500 for the Bartholdi statue.

Beecher to Attend Church.

LONDON, July 10.—Rev. Henry Ward Beecher will attend afternoon service at Westminster Abbey to-morrow. In the evening he will be the guest of the Dean.

Where the President Will Spend August.

ALBANY, July 10.—The Journals' Malone correspondent says that the President and Mrs. Cleveland will visit Upper Swaranic Lake in August.

Died.

NEWBURGH, N. Y. July 10.—Henry K. Brown, sculptor, died here to-day; aged 72 years.

Arrived.

LONDON, July 10.—Arrived, steamer Lerdem, from Amsterdam.

Mothers Read.

The proprietors of SANTA ABIE have authorized Preuss & Hance, 77 and 79 N. Spring street to refund your money, if after giving this king of cough cures a fair trial as directed, it fails to give satisfaction for the cure of coughs, colds, croup, whooping cough, and all throat and lung troubles. Such is their faith in SANTA ABIE as the king of cough cures. Don't fail to keep it in the house.

The new Ellis college is rapidly approaching completion and will be an ornamental as well as a useful institution upon the beautiful heights where it stands.

NEWS OF THE WORLD.

A Prominent Conservative Defeated.

A ROW BETWEEN STATESMEN.

A Large Verdict Against the Western Union Telegraph Company—Coast Notes.

[*Special to the Herald by the Associated Press.*]

LONDON, July 10.—Right Hon. Geo. Otto Trevelyan, who, with Chamberlain, resigned from the Cabinet to oppose Gladstone's Irish policy, has been defeated as the Unionist candidate in Hawyek for Parliament. In last October Trevelyen was returned as a Liberal from Hawyek without opposition. Out of the 5,016 votes polled at Hawyek, Brown, the Gladstonian candidate, received a majority of 303. The announcement of the result has produced a sensation throughout the country.

Returns received up to midnight tonight show that the Conservatives have elected 289 candidates, Unionists 63, Gladstonians 149, Parnellites 72. The Conservative gain has been reduced by two. Lord Hartington has been reelected for the Rosendale division of Worth, East Lancashire, receiving 5,395 votes against 3,045 for Mr. Newbigging.

It is rumored that Gladstone, who was elected in both Midlothian and Leith, will recommend Sir Charles Dilke for the latter seat, in which event the Unionists will run Goschen in opposition.

A ROW.

A political fracas occurred at Westminster in Wiltshire to-night. Lord Harry Thynne, Conservative, met G. P. Fuller, Gladstonian candidate for the House of Commons for the Western Division of Wiltshire, at the railway station, and in a heated conversation which followed called him a liar. Fuller promptly replied in similar language, when Lord Harry Thynne struck Fuller. The latter returned the attack vigorously and a lively scrimmage ensued. At length Viscount Weymouth and Sir Charles Hobhouse succeeded in separating the combatants. The difficulty grew out of the following circumstance: P. J. O'Brien, Parnellite member for the north division of Tipperary, had attempted to deliver an oration in support of Fuller in the earlier part of the evening, but had been howled down by the crowd in the hall, who greeted the speaker with cries of "Dynamiter" and "Convict." Mr. O'Brien Fuller and his friends were eventually compelled to retreat to Fuller's house, which was besieged by the mob until midnight.

A LARGE VERDICT

But It Fails to Suit Either Party Involved.

NEW YORK, July 10.—Just a year ago to-day the Western Union Telegraph Company, acting by order of court, cut the wires of the American Rapid Company, which it had leased and which were strung to a connection with the office of the Bankers' & Merchants' Telegraph Company and transferred them to a connection with the Western Union office. Receiver John G. Farnsworth claimed that the Western Union had not confined itself to the legal permission to cut the American Rapid wires but it also severed the wires of the Bankers' & Merchants' Company, thereby inflicting serious damage upon it, and as an outgrowth of this claim began suit against the Western Union, laying damages at $2,000,000. A verdict was reached to-day. The case has been on trial for twenty-three days and the best legal talent that could be procured in the country has been engaged. The case went to the jury at 3:45 o'clock yesterday afternoon. All night they deliberated over the mass of documentary and sworn testimony, and at 12:30 this morning they came into Court and said they could not agree. Judge Lawrence sent them back to further consider the case. Shortly before 1 P. M. the jury returned with a verdict of $240,000 for the plaintiff. Mr. Choate asked for a stay for the purpose of making an appeal, and the Judge granted him a stay of 120 days after entry of judgment. Mr. Schenck then moved for treble damages, but the Judge denied the motion and an exception was taken. Neither side seems to be satisfied with the verdict. The costs will be enormous.

Our Hop Crop.

SACRAMENTO, July 10.—Hop vines are not so thrifty as last year. Some yards are very much neglected on account of low prices. The crop this year is only two-thirds of that of last. The vines are healthy. Buyers are contracting for this year's crop for all the way from 22 to 27 cents.

An Outbreak Imminent.

HAVANA, July 10.—Advices from Hayti of the 23d ultimo say that a conspiracy against the government has recently been discovered and an outbreak is feared. The foreign residents displayed great anxiety and the presence of men-of-war of their respective nations was much desired.

A Fire.

DENVER, July 10.—A report just received here says that the Lindell mills at Fort Collins, owned by the Colorado Milling and Elevator Company, caught fire this morning and were completely destroyed. Loss, $60,000; insurance, $28,000. The cause of the fire is unknown.

A Superb Work of Art.

There was placed in the window of the drug store of Preuss & Hance yesterday a painting in oil by the young artist W. W. Armstrong, but which is now the property of Mr. G. J. Griffith, and is intended to be placed on exhibition in the Mechanic's Fair in San Francisco, where it will certainly attract unusual attention and go a long way towards bringing the artist's name into merited fame. The study is of the incomparable and indescribable Yo Semite Valley, one of nature's greatest wonders, and one which, along side of Niagara, baffles the descriptive powers of the greatest geniuses of the pen, and one which only a real genius of the brush may approach with any certainty of escaping harsh criticism. It may seem presumptive for any one but an accomplished student of art to attempt to pass any judgement at all upon a manifestly great work of art, but there are certain simple principles established by acknowledged masters of criticism which may guide even the tyro toward a fairly correct estimate of the value of all works of art. Judged by these principles the Yosemite of Armstrong may be safely placed along side of the best paintings of this class which are likely to appear at the Mechanic's Fair in San Francisco, and perhaps in any other similar exhibition upon this continent.

The stand-point from which the artist gives the view of this stupendously sublime, as well as inapproachably beautiful massing of nature's terrible forces is one from which is disclosed both the grand and beautiful in commingled grace and grandeur. The mind is scarcely engaged in contemplating the awful heights and depths of El Capitan, the Half Dome, and all the huge surroundings when it floats off into the softened hazy distance where Cathedral Rocks seem to shorten the giants in the forefront, and, relieved, the minds eye rests for a moment with a thrill of delight upon the exquisite Bridal Veil, to finally rest upon the peaceful valley below with its aboriginal inhabitants, trees, vales and charming prospects. And everywhere from dome to valley, from the near green glade to the remotest hazy mountain, the coloring is true to nature, as any one who has visited this wonderful spot will testify. While this painting will bear a long and close study in detail, and indeed grows better the more it is studied, it is also satisfying as a whole, as a completeness which would be marred by leaving out any single object. But one can only give a faint idea of such a painting, just as it is possible only to give a still fainter idea of the Yosemite in words. It must be seen and studied to be appreciated.

This sale will include all the drugs and chemicals; also druggists' findings, shelving, counters, labeled bottles, perfumery and fancy goods, and in fact everything connected with a first-class drug, chemical and finding establishment.

NOTE.—This establishment is finely fitted and well stocked in every appointment, and an old established business of 27 years standing. Many fortunes have been made in this establishment. The entire stock, shelving, counters, all and everything to be sold in ONE LOT.

We particularly call the attention to all first-class chemists and druggists in any and all the adjoining towns or in the State, to examine and to be on hand on the day of sale. This stand has a cheap rent. We guarantee it a first-class money-paying business. There is no business in Southern California that pays so large a profit as this establishment, according to the amount of money invested. Prescription business is very large.

Will be sold at the same time the contract for supplying the County Hospital for one year, and will be included in the sale of the establishment.

Let every person that wants the best paying business in Southern California call and examine the above. Further particulars may be learned of R. C. Guirado on the premises, or of John C. Bell, the auctioneer, No. 43 Temple Block.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent, and is productive of very serious consequences. The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fœtid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the palate, in the passage between the throat and head, adhering to the parts with gluish tenacity. Its lodgment embarasses respiration and creates a sensation of irritation and uneasiness in the affected locality, gives rise to a constant and almost irresistable desire to relive the discomfort by drawing the mucus into the throat so rs to eject it by the mouth. Thss practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarassing to the one affected as it is disagreeble to those around him.

Again the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose. which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled. on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulseration, which, in time may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrefies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room, and there are otheas in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temples, on the top of the head, at the back of the neck, or behind the orbids, and, occasionally, pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceeding fœtid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable stuffy sensation in the head, and occasioning to violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing buality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fulness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat.

The stomach generally suffers more or less and become weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep; the memory weakened and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse and involving a larger extent than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat larynx, trachea and bronchial tubes until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the stomach, bowels, kidneys, etc.

Thus catarrh becomes th[illegible] starting point of consumptive develop[illegible] e disease being eventually transmitted [illegible] he lungs, both by nervous connection [illegible] continuity of surface.

So frequently has this f[illegible] ourse been noticed that all those wh[illegible] thoroughly conversant with the subje[illegible] look upon catarrh as a preme[illegible] one of the very earliest manifestations of consumption.

Every case of catarrh is curable if properly treated.

THE PEOPLE'S STORE.

Our stock-taking is over. The lack of activity around our stores and our early closing was due to our desire to get through with our "house cleaning" as quickly as possible. We are done, thank goodness, and during the balance of the month, and this week in particular, we are going to rush things. Warm weather will be no obstacle. We are going to offer goods at prices that will dispel the heat and make everybody come for them.

COOL BARGAINS EVERY DAY.

We have laid out thousands of dollars' worth of goods to be closed out. Every time a lady gets through her annual house cleaning she finds lots of articles she didn't know she was the possessor of, or lost to memory. So it is with the merchant. In the magnitude of our stock it is impossible for us to remember every thing we have.

Stocktaking brings everything to light and we find many a line that is better out of the house than in. Values change yearly and we find with the money out of the goods we can do more public good than with the merchandise in our store. The goods we offer are all splendid and desirable, and the price we put on them will be more than satisfactory.

We have taken from every department and we expect to do an immense business next week. We never had an article in our house that a price would not sell, and everybody knows that WHEN THE PEOPLE'S STORE WANTS TO SELL the price is an insignificant factor. We desire to call the attention of the wholesale trade to our stock. We guarantee to sell less than San Francisco wholesale prices and save you the freight besides. Our terms to everybody—cash. For specially selected daily bargains see the local columns of this paper.

"Irrigation Development."

The first volume of what is called the final report of the State Engineer of California, bearing the above title, which has just been issued from the State Printing Office for sale, is a work indicating such profound research and thorough familiarity with the many intricate problems of irrigation that it has created general surprise and unanimous approbation. The people have been looking for a general statistical and scientific review of irrigation as it exists in California, containing the results of the seven years of research, survey, measurement and experimental study since the Department of the State Engineer was organized. This it appears, however, is to follow in the second volume, the first, which is before us, being devoted to an outline of the history of water and irrigation customs, laws and regulations of the three foremost irrigation countries of the world—Italy, France and Spain. As the author states in his introduction, "this compilation is a pioneer in the field. There was no model or guide for it. There is no other work in any language which essays the picturing of the development of the water and irrigation laws, customs and regulations of the three countries named, or of any two of them, in a manner intended to serve as a basis of comparison, or as a foundation of study of their principles."

It was perhaps a departure from the strict line of his duty for the State Engineer to have collected and collated the immense mass of foreign literature from which this book is compiled, but he has fairly won the gratitude of the people of the State for having done so, and the volume very properly prefaces his report. It has moreover appeared at a most opportune time, when public interest in the subject is at fever heat, when we are practically at sea as to what systems of laws and regulations we shall adopt to settle our water rights, and secure uniform equity in the attainment of the desired end of utilizing all our waters in irrigation to their utmost possible extent. As an irrigation community California is very young and inexperienced, and we can profitably study the usages of older countries as summarized in "Irrigation Development," in revising the laws and regulations which are to govern us in future. Were England an irrigation country like France, Italy or Spain, where all trace of riparian obstruction to irrigation has been removed, and the innavigable waters are dedicated to the fertilizing of the soils in irrigation, our Supreme Court would never have found in its common law a pretext for taking away the right of public use in our streams and giving the waters solely to the bank owners, to the thirsty sands and to the ungrateful sea.

This book should be read and carefully studied by our irrigators and our law makers and law interpreters, present and prospective. It is a condensed library on the subject, and is worth to the State all her State Engineer has cost, even if he does nothing more.

THE hot weather which we have been having for some days past is a fine factor in the financial problem of Los Angeles county. It is mellowing the grapes and has arrested and dissipated the mildew with which they were threatened. We were pleased yesterday at being assured by one of the most sagacious business men and vineyardists of this section that the probability is extreme that grapes will this year command $15 a ton. Mr. L. J. Rose will, in all likelihood, resume wine and brandy-making at his distillery and winery, located on the east side of the river. Charles Kohler will crush an unusual quantity of grapes, and Mr. Nadeau will probably manipulate his own products; so that, take it for all in all, the prospects ahead are excellent for the vineyardist. The State is almost denuded of wines and it will take time to replenish the stock with consequent stiffening of prices.

IT is heartily to be hoped that Mr. Pixley will join forces with Mr. Wiginton and put the American party fairly on its feet in California. We think there has never been a more auspicious time for such a departure than now. Certainly no Democrat will object to the movement. That time-honored organization, which jumped the American party away back in the "fifties" is prepared to do it again, with the now far larger contingent of foreign-born voters than that which then acted with it. A good, overwhelming victory, such as that which ushered in the election of Gov. Stoneman four years ago, would be highly pleasing to the average Democrat.

WE have been advised by the Messrs. Cottrell that the shipment of the new HERALD press has been delayed some two weeks. This is one of those unavoidable occurrences which, however annoying, must be borne. In consequence we shall, in all likelihood, not be able to issue the eight page HERALD till towards the close of the month of July. Our hope had been that, at the outside, the 15th instant would have seen the change accomplished. However, it is after all but a very brief delay, and we beg the indulgence of our patrons.

THERE is something really exhilarating in the way the whole of Southern California is advancing of late. From San Luis Obispo all the way to the Mexican line, on the southern boundary of San Diego county, there is an inspiriting tendency in real property absolutely founded upon merit. Real estate is in active demand because its true value is appreciated.

GLADSTONE'S defeat is decisive though it is by no means a rout. The grand old man himself points out the fact that Scotland and Wales have stayed by him, while England requires a little more time. The trouble will begin when Parliament meets.

WILL he be Swift or Dimond or Hartson or Reed? This is the query as to the personality of the gentleman whom the Republican party have selected to be beaten at the next election.

The Physiology of the Liver.

The liver is the largest secretive organ in the human body, and the bile which it secretes is more liable to vitiation and misdirection from its proper channels than any other of the animal fluids. Luckily for the bilious, however, there is an unfailing source of relief from liver complaint, namely, Hostetter's Stomach Bitters, a medicine for which over a quarter of a century has been achieving thorough cures of the above mentioned ailments, fever and ague, dyspepsia, bowel complaints, rheumatic and kidney affection and disorders involving loss of nervous vigor. It is moreover a preventive of malarial disease, and affords protection to thousands of persons residing in districts of country where the dire scourge is prevalent. As a remedy adapted to the medicinal requirements of families it is supremely desirable, and as a means of fortifying a debilitated system, it is thoroughly to be depended upon.

The Rag Monopoly Hursted.

Attention has from time to time been called to the corner made in grain sacks by which the price of that commodity has been put up from 4½ to 12 cents per sack, entailing a fearful loss on many grain growers who had not secured their sacks before the corner. The management of the corner was directed by the Nevada Bank, and many an Angeleño suffered in consequence.

But fortunately some of our largest grain growers concluded to be free from the San Francisco tyranny which used to grind the substance out of the people of Southern California, and accordingly purchased their sacks in New York at half the current rates in San Francisco and had them sent here at the same rate of freight as if sent from that city. That is a specimen of the way in which Los Angeles is becoming free from the combinations of the metropolis of the Coast. Nearly all the goods of our wholesale merchants, except tea and spices, are now purchased in Europe or in the Atlantic States.

As a consequence merchandise can now be purchased from Los Angeles dealers at the same price as in San Francisco. The world moves and Los Angeles moves with it.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills. By the time he had taken two boxes of Pills and two bottles of the Discovery he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at C. F. Heinzeman's.

The Palace Hotel, San Francisco, is undoubtedly the finest, largest, completest, safest and best kept first-class hotel in the world. Its table is incomparable, as may be readily believed when we state that Schonewald, late of the Del Monte has this particular part under his direct supervision.

J. W. Fuller, the Watchmaker,

It came from C. F. Heinzeman's store;
Has proved to be a perfect cure,
Pleasant tasting, safe and sure.

That gum tree (eucalyptus) cough syrup, which is made from the eucalyptus, or blue gum, leaves of the Australian tree, and during its introduction on this coast has been proven to be the most valuable remedy for colds, coughs, sore throat, whooping cough, bronchitis and consumption. The only remedy that will not cause heartburn or disorder to the stomach in cases where consumption has got firm hold. Relieves the coughing, builds up the weak frame and is positively superior to any drug cough remedy. A dollar size package for seventy-five cents. C. F. HEINZEMAN, Agent, Los Angeles.

Important to Consumptives.

The people of Australia and of the State of California have been astonished at the wonderful curative power of Eucalyptus, or gum tree leaves, for all throat and lung diseases. A preparation called the "Gum Tree Cough Syrup," has rapidly sold all over our State, and is the only cure for a cold, whooping cough, bronchitis, etc., that will not make you sick at the stomach in taking. Relieves violent coughing; soothing to fever and all irritation. C. F. Heinzeman, sole agent, Los Angeles.

Official Report on the Grain Crop.

WESTERN PROSPECTS GOOD

A Decision Holding that Bankers are not Liable for Embezzlement of Deposits.

[Special to the Herald by the Associated Press.]

WASHINGTON, July 10.—The July report of the Agricultural Bureau says: The average condition on July 1st of winter wheat has declined from 92.7 to 91.2. The condition of the crop of spring wheat has declined from 98 in June to 83, in consequence of the high temperature, drying winds and lack of rain in the principal States. The decline has been in Wisconsin from 98 to 78; Iowa from 100 to 90; Nebraska from 97 to 83; Dakota from 90 to 85.

The acreage of corn has very slightly declined in the Middle States, and Maryland, Virginia and South Carolina, with some increase in other States of the South. In the Ohio valley the acreage is nearly the same as in 1885. West of the Mississippi the increase is heavy; in Kansas, 20 per cent., Nebraska 10, Dakota 30. The total increase is 3½ or about 2½ million acres. Corn is late on the Atlantic Coast from wet weather and cold nights; and the stock in many localities rotted the seed and replanting became necessary; instances are reported of planting three times, yet there is generally a fair standard and the crop is growing and healthy and with seasonable July weather will make a full yield. It has suffered on the Gulf Coast where wet areas are still more unpromising. The red lands generally bear vigorous growth, while in gray soils and the bottoms the plants are yellowing and spindling. Some areas have already been abandoned. Some parts of Texas have been dry, but abundant recent rains will suffice for a good crop in the eastern and central counties. Arkansas shows high condition. Tennessee reports injury from low temperature and excessive rain. The great corn belt of the west reports medium to high condition, growing better from Ohio to Kansas. The Missouri valley averages better than the Ohio river and Lake region, there is a full stand in Missouri, vigorous and even growth and ten days earlier than last year. Kansas returns are fully as favorable. Insect injuries have nowhere been serious. The chinch bug is now threatening some localities in the west. The general average is 93, against 94 last year and 96 in 1884.

A Strange Decision.

SAN FRANCISCO, July 10.—The charges of embezzlement against S. I. Bean and W. H Osborne, conductors of the defunct Hayward Bank, Alameda county, were dismissed yesterday in accordance with a recent decision of the United States Supreme Court, that depositors and bankers hold the same relations with one another as debtor and creditor, the title to the money passing to the bank when it is placed on deposit, and it therefore was not subject to embezzlement while in the their hands.

Hopeful for the Panama Canal.

PARIS, July 10.—M. de Lesseps has issued a spirited circular to the shareholders of the Panama Canal Company. The document declares: "Despite obstacles we shall march on. The apparatus and machinery are all ready. We only require $120,000,000 to complete the canal in 1889. We shall issue debentures forthwith to enable France to complete her peaceful conquest of the isthmus of Panama.

Harris, Director of the Panama Canal Company, has approved De Lesseps' circular. The company will issue a fresh bond to the amount of 600,000,000 francs with large premiums and frequent drawings. The Government has withdrawn the Panama Canal lottery loan bill from the Chamber of Deputies.

Recognition of Explorers.

NEW YORK, July 10.—The *World's* Washington correspondent says that Sergeant David L. Brainard has received from the Royal Geographical Society of Great Britain a gold pocket chronometer valued at $500, in recognition of his services as a member of the Lady Franklin Bay expedition. The chronometer is paid for out of a fund founded by Admiral Sir George Back, R. N. Lieutenant Greeley also received the gold medal annually awarded by the Society for the greatest geographical knowledge added by examinations or explorations.

A Steamer Captain Arrested.

NEW YORK, July 10.—Yesterday the captain of the steamship Nevada was arrested and taken before the United States Commissioner in this city on the charge of overcrowding his vessel with second-class passengers. The Nevada on her last trip from Liverpool brought over 799 emigrants. Her licensed capacity is 754 second-class passengers. The penalty for violating this law is a fine of $50 for each person carried in excess of the number allowed.

A Schooner Lost.

SAN FRANCISCO, July 10.—Word has been received here announcing the loss of the schooner Lookout in the Chounagin Islands, which are part of the Aleutian group. The Lookout was a small vessel of sixty-seven tons burden, and her principal owner was H. Gaffney. She left this port on a whaling cruise on April 30th. The captain and crew have reached Hirat's Cove in safety. The vessel was valued at about $5000 and is a total loss.

Highway Robbery.

SAN LUIS OBISPO, July 10.—C. J. Jacobs, a resident of this city, acting as a sewing machine agent, while returning yesterday evening from a canvass of of Santa Barbara county, was halted near Arroyo Grande by a highwayman and relieved of $17.50 and jewelry.

A Jockey's Salary.

CHICAGO, July 10.—Isaac Murphy, Baldwin's jockey, whose salary at present is $6000 a year, has been re-engaged by Baldwin for the season of 1887 at $10,000 a year. This is the highest known salary for which a jockey was ever engaged in America.

FINANCE AND TRADE.

Government Bonds and Railway Shares.

NEW YORK, July 10.—Government bonds dull and steady.

Stocks were very dull. The only feature of interest was Western Union, which, on the announcement of the verdict in the case, receded slightly, but reacted and remained firm for most of the afternoon. At the meeting of the Pacific Mail directors nothing was done except to reject offers made to the company, and the situation in transcontinental affairs, consequently remains unchanged. Stock was dull and steady throughout the day. Consolidated Gas, which has been steady for the past few days, took an upward turn to-day for no apparent reason. The market was tame and spiritless at the opening, first prices being irregular, but differing generally only ⅛ to ¼ per cent. from last evening's closing. The market closed dull and heavy close to the opening figures. The net result of the days business is slight advances for most of the active list, Lake Shore and Northwestern leading with ¾ per cent. each and Consolidated Gas and Erie preferred gained 1½ per cent.

The New York Stock Market.

NEW YORK, July 10.—Three per cent Government bonds, 101½; four per cents, 125¼; four and a half per cents, 111½; Central Pacific, 42; Denver & Rio Grande, 27; Kansas & Texas, 31½; Northern Pacific, 26½; preferred, 59½; Chicago & Northwestern, 112½; New York Central, 55½; Oregon Navigation, 108; Transcontinental, 33½; Oregon Improvement, 20; Pacific Mail Steamship, 56½; Panama Railway, 98; Texas & Pacific, 9½; Union Pacific, 55½; United States Express, 63½; Wells, Fargo & Co.'s Express, 123; Western Union Telegraph, 66½.

New York Money Market.

NEW YORK, July 10.—Money on call easy at 1 to 2 per cent; prime paper, 4@5 per cent; sterling exchange bills dull, $4.86½ for sixty days, $4.88 demand.

Petroleum.

NEW YORK, July 10.—Petroleum—Steady. United Pipe Line closed at 64 per bbl.

Cure For Piles.

Piles are often preceded by a sense of weight in the back, loins and lower part of the abdomen causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm is a very common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Piqua, Ohio. Sold by C. F. Heinzeman, agent, Los Angeles.

Twin Foes to Life

Are **Indigestion** and **Constipation.** Their primary symptoms are among the most distressing of minor human ailments, and a host of diseases, speedily resultant from them, mutually aggravate each other and assail at once the whole machinery of life. **Nausea, Foul Breath, Sour Stomach, Dizziness, Headaches, Bilious Fever, Jaundice, Dyspepsia, Kidney Diseases, Piles, Rheumatism, Neuralgia, Dropsy,** and various **Skin Disorders,** are among the symptoms and maladies caused by derangement of the stomach and bowels.

A Thorough Purgative

medicine is the first necessity for cure. Then the cathartic effect must be maintained, in a mild degree, just sufficient to prevent a recurrence of costiveness, and at the same time the liver, kidneys and stomach must be stimulated and strengthened.

Ayer's Pills

Accomplish this restorative work better than any other medicine. They are searching and thorough, yet mild, in their purgative action. They do not gripe the patient, and do not induce a costive reaction, as is the effect of other cathartics. Withal, they possess special properties, diuretic, hepatic and tonic, of the highest medicinal value and

Absolutely Cure

All diseases proceeding from disorder of the digestive and assimilatory organs. The prompt use of AYER'S PILLS to correct the first indications of costiveness, averts the serious illnesses which neglect of that condition would inevitably induce. All irregularities in the action of the bowels—looseness as well as constipation—are beneficially controlled by AYER'S PILLS, and for the stimulation of digestive organs weakened by long-continued dyspepsia, one or two of AYER'S PILLS daily, after dinner, will do more good than anything else.

Leading Physicians Concede

That AYER'S PILLS are the best of all cathartic medicines, and many practitioners, of the highest standing, customarily prescribe them.

"What Came Ye Out For to See?"

As the committee appointed to investigate the phenomenal exhibitions of "Will Force," or "The Power of Mind or Matter," and of "The Gift of Healing," as announced by Dr. A. P. Truesdell through the press of this city, on May 20th, and illustrated daily during the past three weeks at the Grand Opera House Hall, we submit, briefly, the following simple statement of facts, which have come under our immediate observation, and for the truth of which we assuredly testify in behalf of the public interest, but more especially for the benefit of the hopeless chronic sick.

We have ourselves witnessed the fulfillment of the promises made to the public and the sick by Dr. Truesdell in regard to the above referred to "Mysterious of Occult Force." We have again and again—in fact, daily—witnessed the truth of the Doctor's marvelous claims for the "Inner Force of Man," by the even more marvelous proofs of the immediate removal of pain, paralysis, impotency, and scores of diseases, both with and without the touch of hand—many being relieved of pain by merely being present at the Hall while others are being operated upon. Come and see for yourselves.

N. B.—Persons desirous of personal evidence will be referred to those so cured by calling on the Secretary or any member of the Committee.

PILES! PILES! PILES!

A SURE CURE FOUND AT LAST! NO ONE NEED SUFFER.

A sure cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian Remedy), called Dr. Williams's Indian Pile Ointment. A single box has cured the worst chronic case of 25 or 30 years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. Williams's Indian Pile Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed), acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts; and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. Williams's Indian Ointment: "I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams's Indian Ointment." SUMMONS.

In the Superior Court of the State of California, in and for the County of Los Angeles.

GORDA SPEER, Plaintiff, vs. JOSEPH A. SPEER, Defendant.

Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to: Joseph A. Speer, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons, if served within this county; or, if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a judgment decreeing the dissolution of the bonds of matrimony between the above plaintiff and the above defendant, and that the custody of their minor children be awarded to the said plaintiff, and for such relief as her case may demand, and for cost of suit.

Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the Court for the relief demanded in the complaint.

[SEAL] Given under my hand and the Seal of the Superior Court of the State of California, in and for the county of Los Angeles, this eighteenth day of May, in the year of our Lord one thousand eight hundred and eighty-six.

LEGAL.

ALIAS SUMMONS.

In the Superior Court of the State of California, in and for the County of Los Angeles.

JAMES CASTRUCCIO, Plaintiff, vs. J. B. TRABUCCO and JOSEPH TRABUCCO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the Complaint filed in said County of Los Angeles, in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to: J. B. Trabucco and Joseph Trabucco, defendants.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this summons, if served within this county; or, if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree of this Court for the foreclosure of a mortgage described in the said complaint, and executed by the said Joseph Trabucco and J. B. Trabucco on the 20th day of June, A. D. 1885, to secure the payment of the sum of $2,500.00 with interest at the rate of 14½ per cent. per annum from the date thereof, compounded annually. (Said premises so mortgaged being Lot No. 6, in Block No. 3, of the Sanchez tract, in the city of Los Angeles, California.) Also for five per cent. on the amount found due as attorneys' fees, provided for in said mortgage, and for the costs of this action; that the premises conveyed by said mortgage may be sold, and the proceeds applied to the payment of said sum of $2,500 with interest as aforesaid and for 5 per cent. on the amount found due, and costs of suit, and in case such proceeds are not sufficient to pay the same, then to obtain an execution against said J. B Trabucco and Joseph Trabucco for the balance remaining due, and also that the defendants and all persons claiming by, through or under them may be barred and foreclosed of all right, title, claim, lien, equity of redemption and interest in and to said mortgaged premises, and for other and further relief. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the Court for the relief demanded in the said complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 29th day of June, in the year of our Lord one thousand eight hundred and eighty-six.

Order to Show Cause Why Order of Sale of Real Estate Should Not be Made.

In the Superior Court of the County of Los Angeles State of California.

In the matter of the estate of F. O. Moore, deceased.

M. P. Cutler, the administrator of the estate of F. O. Moore, deceased, having filed his petition herein, praying for an order of sale of all the real estate of said decedent, for the purposes therein set forth:

It is therefore ordered by the said Court, that all persons interested in the estate of said deceased, appear before the said Superior Court on

Monday, the 12th Day of July, 1886,

At 10 o'clock in the forenoon of said day, at the Court Room of Department One of said Superior Court, at the Court House, in said county of Los Angeles, to show cause why an order should not be granted to the said Administrator to sell so much of the real estate of the said deceased as shall be necessary.

And that a copy of this order be published at least four successive weeks in the Los Angeles Daily HERALD, a newspaper printed and published in said county.

D J Horsewell vs Ramon Canas and Francisco Ruiz—For possession of Horsewell mine in Cedar district and costs; $73.75.

It is to the small rose of China that we owe the most marked advance toward the modern standard. The tea rose had the habit of blooming, not annually alone, as did all known in Europe before its introduction, but continuously, or at least in monthly crops. The habit of the China rose was taken advantage of and was artificially hybridized with other larger growing sorts—with Damask and Provence roses, old favorites of the garden; with the single yellow and the Persian rose—and from the progeny thus obtained with infinite ingenuity and pains have come such triumph's of the gardener's art as Marechal Niel, La France, and Catarin Mermet. All of these have some of the properties of the tea rose; they have also some of the marks of the various quarterings of their pedigrees, and one may say that for their production strains have been introduced from every quarter of the Northern Hemisphere.

A Sensible Man

Would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles, than any other medicine. The proprietor has authorized H. D. Godfrey to refund your money if, after taking three-fourths of a bottle, relief is not obtained. Price 50c. and $1. Trial size free.

Medicated Inhalations.

No one can say aught against the use of medicated inhalations for lung diseases, on the contrary we are in favor of them, so says Dr. Williams, who has had the honor of treating over 57,000 patients during the past 18 years.

CREDIT SALE

—OF—

Real Estate

A Farm of 20 Acres for $300 CASH

And a credit of one, two, three and four years on deferred payment of $600, at 6 per cent. interest. These terms give any one, with small means, an opportunity to purchase a home.

If you wish to make an investment no safer one can be made. The land is worth 10 per cent. more for an all-cash payment than is offered on these very favorable terms.

200 Acres for Sale on Same Terms.

The soil will produce Fruit and Cereals equal to any uplands that have been offered for sale in this county.

Ample supply of water within 15 feet of the surface, from which an abundance can be secured for irrigation by means of windmills, which is cheaper and healthier than ditch irrigation.

Those wishing to view the lands, with an object of purchase, will be taken to see them free of cost. Situate only

8 Miles from Sacramento City,

On the best road, winter and summer, that leads from the city.

These lands are offered on a basis of $45 per acre, when lands in immediate vicinity are held at from $50 to $75 per acre, in tracts of 80 acres.

NOTICE.

In the matter of the application of Minnie Summerfield to become a sole trader.

Notice is hereby given that I, Minnie Summerfield, wife of Maurice Summerfield, a resident of Los Angeles city and county, being desirous of availing myself of the provisions of Title XII, Part 8, of the Code of Civil Procedure, intend to make application to the Superior Court of the county of Los Angeles, State of California, on Saturday, the 24th day of July, 1886, in Department No. 1 of said Court, at 10 o'clock A. M. on said day, or on such other day or time to which said hearing may be postponed by the Court, for a decree and order of said Superior Court authorizing me to carry on and transact business in my own name and on my own account as a sole trader.

The nature of the business I propose to carry on and conduct is that of a general lodging house business in the city of Los Angeles, Cal.

Dated June 24th, 1886.

HEALTHFUL, HAPPY HOMES!

A chance is now offered to those desiring a tract of the choicest land in Southern California.

The PHILLIPS Tract

Is being sold in lots of ten or more acres at prices ranging from

$65 TO $100 PER ACRE,

With water rights and a share of stock with each acre. The soil is of a very superior quality; rich, sandy loam, easily cultivated and retains the moisture to a wonderful degree, not requiring water for vineyards. This is the home of the orange and lemon. As fine fruit as is produced in the State is raised in the

UPPER SAN GABRIEL VALLEY.

Equal in every respect to the Riverside orange. Also adapted to all kinds of deciduous fruits and vines; and strawberries and rasberries can be raised the year round; also potatoes, tomatoes, peas and vegetables of like character.

The climate is as fine as there is on this coast, exceedingly healthful, free from fogs and but seldom frost, being protected by the Sierra Madra range of mountains on the north, gently sloping south and west.

This most beautiful tract of land is located five miles from Puente Station, on the Southern Pacific Railroad, and eight miles west of Pomona, on the extension of the beautiful San Gabriel Valley.

This land must be seen to be appreciated.

It has settled up very rapidly during the past year, and while it posesses all the advantages that any portions of the valley does as regards soil, climate, etc., this land is being

Sold at Almost One-Half

What is being asked in other sections in the same valley. The extension of the Los Angeles and San Gabriel Valley Railroad will run close to this tract and the town of Covina, which will give it additional advantages.

COVINA!

This town is located on the tract. Contains a number of good houses, stores newspaper, livery, carpenter and blacksmith shops, good hall, churches and a fine school. The lots in the town are 60x175, and to those desiring to improve are

Being Sold at from $50 to $100 Each.

To actual settlers inducements are being offered as regards payments, making it easy for one with moderate means to obtain a desirable home at a very reasonable outlay. Persons desiring to see the lots or land can go out any day from Puente Station, there being a regular

DAILY MAIL TO COVINA.

The tract has broad avenues and streets through the land and town. The land is not only wonderfully rich and productive, but LEVEL and CLEAN.

The CALIFORNIA POSITIVE and NEGATIVE

—ELECTRIC—

FAMILY MEDICINE.

THE MOST POWERFUL PREPARATIONS ON THE GLOBE.

TRADE MARK.

No minerals or poisons used in our preparations—all that are used are gathered from the beautiful hills of Southern California. Results are unparalleled in the history of medicines. These preparations give you a young and cheerful feeling. Electricity is life; without it death comes sure and soon. Have it, send your order to us.

CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC GOLDEN DROPS.

In presenting this preparation to the ladies, we take great delight; first, we know it is the best preparation for ladies ever known; and, second, we know it will benefit you. The ladies are the sufferers of more diseases than men, and many of them more fatal. The turn of life is considered a very critical period, indeed there is at this time a radical change of the circulation of the blood, and if it is impure a general derangement follows. Hence, the frequency at that period of diseases which we need not here mention. At no time in life is it more essential to have the blood and system prepared for this great change. Thousands of ladies die annually at this time of life that might be saved by using our Golden Drops. For young ladies there is nothing better, it strengthens all the parts connected with the womb, and gives such a healthy condition of it that the ailments young ladies are subject to do not appear. This alone is worth many times the price of the medicine. This is the best preparation for ladies on the American Continent, and no lady, old or young, should be without it. Buy a bottle and be convinced—tell your neighbors. If your druggist does not keep it, send to us, and on one dozen bottles ordered at one time we will pay charges. Ask your druggist for it, take no other. Price, $1.50 per bottle.

CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC RHEUMATIC CURE.

Rheumatism does not come upon the system very rapidly, and generally gives ample warning of its appearance; but when once thoroughly seated, it is the most stubborn and agonizing of all ailments of the human system. Our California Positive and Negative Rheumatic Cure is a positive safeguard against its further development when the symptoms occur, and a positive cure when the dreadful disease assumes a chronic form. The worst forms of sciatic rheumatism give way to its wonderful power, and it acts like magic in its curative power. Rheumatism is a blood poison, and if left alone, in a short time it destroys all the energy of its victim, and causes the most excruciating suffering known to humanity. This preparation is fatal to neuralgia. Use the Electric Wash for application to affected parts and take the other as directed. Price, $1.50 for the two bottles, which come together.

CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC COUGH AND CONSUMPTION CURE.

This preparation is not equaled by any other for the cure of consumption, colds, coughs, etc. The principal ingredients were found out by us from an old Spanish lady and is given to the public by us only—a trial by the afflicted will convince you that never before have you had such a preparation. It is invaluable for asthma, spitting of blood, croup or hives, whooping cough, pleurisy, inflammation of the lungs or chest, hoarseness, soreness of the breast, difficulty of breathing, all diseases of the lungs and breast attest its usefulness. It immediately gives relief in whooping cough, croup and assists in its cure. Asthma passes away by its use. Bronchitis, sometimes mistaken for consumption, which carries away thousands annually, is permanently cured by its use.

Use nothing but the California preparation, as it is harmless, leaves no poisonous substance in the system, and eradicates every germ of this dreaded disease. Price, $1.00 per bottle.

DR. LIEBIG

Private Dispensary.

400 Geary St., San Francisco, Cal.

Conducted by Qualified Physicians and Surgeons—regular Graduates.

The **Oldest Specialists** in the United States, whose LIFELONG EXPERIENCE, perfect method and pure medicine, insure SPEEDY and PERMANENT CURES of all Private, Chronic and Nervous Diseases. Affections of the **Blood, Skin, Kidneys, Bladder, Eruptions, Ulcers, Old Sores, Swelling of the Glands, Sore Mouth, Throat and Bone Pains**, permanently cured and eradicated from the system for life.

NERVOUS Debility, Impotency, Seminal Losses, Sexual Decay, Mental and Physical Weakness, Failing Memory, Weak Eyes, Stunted Development, Impediments to Marriage, etc., from excesses or youthful follies, or any cause, speedily, safely and privately cured.

Young, Middle-aged and Old men and all who need medical **skill and experience**, consult the old European Physician at once. His opinion costs nothing, and may save future misery and shame. When inconvenient to visit the city for treatment, medicines can be sent everywhere by express **free from observation**. It is self-evident that a physician who gives his whole attention to a class of diseases **attains greater skill**, and physicians throughout the country, knowing this frequently recommend difficult cases to the **Oldest Specialist**, by whom every **known good remedy** is used. The Doctor's **age and experience** make his opinion of **supreme importance**.

Those who call see no one but the Doctor. Consultations free and **sacredly confidential**. Cases which have failed in obtaining relief elsewhere especially solicited. Female diseases successfully treated. **The Doctor** will agree to forfeit **$1,000** for a case undertaken not cured. Call or write. Hours: Daily, from 9 A. M. to 4 P. M., 6 to 8 evenings. Sundays, **10 to 12** only. SEND FOR THE SANITARIST GUIDE TO HEALTH. SENT FREE. Address as above.

It is acknowledged by the Medical World that the **name LIEBIG** would have been immortalized, even had the discovery of the life-giving material composing the **Liebig Wonderful German Invigorator** been his only gift to suffering humanity.

So effectual and sucessful has been the treatment of all Private Diseases and Special Complaints of men, by the DR. LIEBIG method, that the Liebig Dispensary now has a monopoly of such diseases on the Pacific Coast—in fact, many are coming from the Eastern States to be cured.

The Doctor's fame as a specialist for diseases of men is universally known and hundreds are daily availing themselves of the opportunity of free consultation, personally or by letter, in all languages.

DR. LIEBIG'S

Wonderful Magnetic Healers, or Self Magnetisers,

Are the latest discovery made at the Liebig Dispensary, and now every one can be his own Magnetic Healer and Hand Rubber. Price, $5.00. Sold only at the Liebig Dispensary.

DR. LIEBIG'S

Wonderful German Invigorator

Permanently prevents all Unnatural Losses from the system, tones the nerves, strengthens the muscles, checks the waste, invigorates the whole system, and restores the afflicted to Health and Happiness.

The reason so many cannot get cured of Seminal Weakness, Loss of Manhood, etc., is owing to a complication called PROSTORRHEA with HYPERAETHESIA, which requires peculiar treatment. Dr. Liebig's Invigorator is the only positive cure for PROSTORRHEA, with peculiar special treatment, used at the LIEBIG DISPENSARY.

Price of Invigorator $2. Case of six bottles, $10. Sent to any address, covered securely from observation.

Most powerful electric belts free to patients.

PASADENA.

Progress of the "Crown of the Valley."

THE GREAT RAYMOND HOTEL.

Description of It—A Palatial Caravansary—Encouraging Prospects for Pasadena.

Beautiful Pasadena seems to be growing more beautiful as each month progresses. The influx of strangers continues and the outlook is that the coming fall and winter there will be the largest immigration that the settlement has ever known. For the benefit of the many new comers and readers of the HERALD all over the world who take a deep interest in everything about this "Modern Garden of Eden," it is proposed in this article to give a few facts of interest concerning the present condition of the settlement, together with a sketch of the great Raymond Hotel and some descriptive matter concerning it.

PASADENA IN MIDSUMMER.

Notwithstanding a large number of tourists, like the swallows, homeward fly at the first approach of spring, it must by no means be understood that the climate of Southern California is at all disagreeable in summer. The cool ocean breeze reaches the interior valleys by 10 A. M. each day, and, with the exception of a few days during the season, the heat is never oppressive. Pasadena is particularly favored in its location, and its delightful climate has been so often described and praised that it is needless to dwell upon it—it is a climate for all the year round.

The principal charm of Pasadena is the great number of small homes, nearly all surrounded by orchards, flowers, gardens and shrubbery of various kinds. The good work of beautifying Pasadena has gone on steadily for several years; each owner seeming to take pride in outdoing his neighbor in this respect. In winter, the orange, lemon and lime trees are in their glory, and in summer the deciduous trees and vines add to the wealth of foliage. The fruit product this summer is large and excellent and will bring a considerable sum into the settlement.

SAN GABRIEL VALLEY RAILROAD.

When this local road was opened for travel about a year ago, there were not a few who thought it would be some years before the concern would be on a paying basis. But happily, almost from the start the travel and business of the railroad has far exceeded the expectations of its owners and the public. Its business has, in fact, so rapidly developed that the company have been obliged to increase their rolling stock and contemplate adding still further to their facilities. It is quite probable that within another year trains will run every hour between this city and Pasadena.

THE BUILDING BOOM.

Pasadena is continually adding to its handsome dwellings and substantial business blocks. Scarcely a day passes that work on some new building is not commenced, and it is noticable that, as a rule, the buildings are of the better class. Among the most important of recent improvements in this line are the Exchange Block, the new Methodist Church, and the new Grammar School, which is to cost $50,000 when completed. If space permitted we might give a long list of private dwellings, either in process of construction or on which work will soon be commenced, but it is sufficient to state that the building operations this summer and the coming fall and winter will far exceed any previous year.

CHURCHES, SOCIETIES AND SCHOOLS.

Pasadena has a Methodist, a Presbyterian and an Episcopalian society, each with a church edifice. All are flourishing. The Baptists hold occasional services but have no church edifice. There are three school buildings—one a Central Grammar and Primary school, one primary school on Mark Hill and one on Colorado street. Sierra Madra College is an excellent private institution. There are lodges of the Masons and Knights of Pythias and a post of the Grand Army of the Republic; there is a public library and reading room furnished with the latest works and periodicals.

OTHER IMPROVEMENTS.

Among other improvements may be mentioned a street car line, which will soon be completed, passing through the principal portions of that settlement. In a short time it is expected that work will be commenced on a railroad connecting Pasadena with the San Fernando valley, via Crescenta Cañada. This enterprise will, when completed, open up a fine country, which will be mostly tributary to Pasadena. A number of manufacturing enterprises are doing well and more are needed. The population of Pasadena is placed at 4000, having more than trebled in the past four years.

THE RAYMOND.

The Finest Hotel in Southern California.

The crowning glory of Pasadena is the grand Raymond Hotel, an illustration of which appears elsewhere. This magnificent edifice is located upon what was formerly known as Bacon Hill, a site commanding a view of the whole valley, the mountains and the ocean. To Mr. Walter S. Raymond, manager of the famous Raymond excursions, and to his father, Mr. E. Raymond, the credit for this magnificent enterprise belongs. The history of the undertaking is well known. Work was commenced about two years ago and after the grading had been completed it was temporarily suspended. The construction of the building was commenced last September and since that time it has been pushed as rapidly as possible.

The following facts concerning it will be of interest. The main building has a southern frontage of 287 feet by 50 feet deep. The west wing runs back 75 feet north and is 42 feet wide; the east wing is 82x42, the centre wing 127x50, the kitchen wing 74x36. The main building and the wings are four stories in height, the dining room wing two stories; the tower is 104 feet high, seven stories. Around the whole lower story runs a 15 foot porch, which will be most delightful as a promenade or as a point from which to view the country.

A handsome entrance in the center of the building leads to the reception office, a fine apartment 41 feet square and 16 feet high. To the right is the clerk's office and close at hand on the north are two stair-cases, each six feet wide in the clear. Between the stair-cases is an Otis elevator, furnished with all modern appliances.

The principal apartments of the lower floor are a ladies' reception room, 25x21; ladies' billiard parlor, 24½x21; ladies' reading room, 26x21; ladies' grand parlor, 30x41; grand ball room, 39x84; gentlemen's billiard room, 40x21; gentlemen's reading room, 26x21; bar, 26x21; grand dining room, 50x96; kitchen, 35x40; bake room, 16x24. In the first story there are fifteen sleeping rooms for guests, in the second story seventy, in the third fifty-five, and at the top of the tower six. The rooms are all provided with grates for fires and electric bells, and there are speaking tubes to each story. Every precaution has been taken to make the house absolutely fire-proof.

In the rear of the building are two large courts, each 76 feet wide. These will be handsomely improved—laid out with walks and planted with flowers.

The building will be lighted with coal gas made in Pasadena, and will be supplied with pure mountain water. The sleeping rooms are of ample size, and the arrangement of the building is such that the sun reaches nearly every room in the hotel. The total cost of the structure will reach $300,000. The arrangement of the grounds is in the hands of one of the most experienced landscape gardeners in the State, Mr. R. Ulrich, the head gardener of the Hotel del Monte, Monterey. The external ornamentation includes handsome fountains, gardens teeming with semi-tropical luxuriance, croquet grounds, playgrounds for children, rustic houses, bowling alleys, an artificial cave, a lake with islands and swan and duck houses. There will also be a huge botanical garden furnished with thousands of ornamental trees, flowers, plants and shrubbery.

It is expected that the Raymond will be opened sometime in October. C. H. Merrill, who has officiated as the manager of several famous Eastern resorts, will be the manager. To this magnificent caravansary the Raymond excursionists will hereafter be taken, and everything that can be done will be done to make their stay a delightful one, and an event to be remembered all their lives. The natural effect of the opening of this grand hotel will be to still further advance the interests of Pasadena; to make it still more of a business center, and to greatly enhance the value of property.

WHITTIER, FULLER & CO.—PAINTS, OILS, GLASS, ETC.

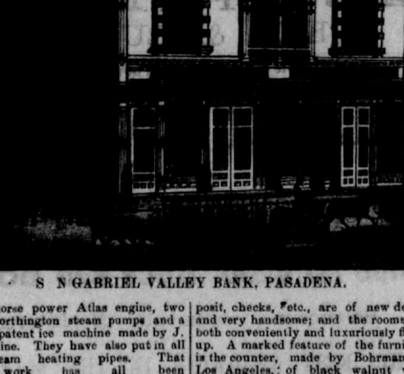
To supply the various materials that were used in the construction of the Raymond was no small undertaking, and in some instances the largest houses which had contracts to supply material found themselves unable to do so and had to sublet the contract to other firms. In this, of course, there is nothing discreditable, as it is very seldom that such buildings as the Raymond are erected in our southern country. To supply the paints, oils and other materials in this line was a much larger undertaking than many Eastern houses could have accomplished. Yet the house of Fuller, Whittier & Co., at 207 North Los Angeles street, supplied all the paints, oils, varnishes and materials for the natural wood; also the glass through the entire building. When the great quantity of glass, paints, oil, etc., that are necessary to cover this immense structure is considered then we can realize what an extensive institution this firm is. This house has, however, a decided advantage over all competitors and it may be said with a reasonable degree of certainty, that it does the largest business in its line on the coast. The firm of Whittier, Fuller & Co. is a Pacific Coast institution and has steadily increased with the growth of the slope. The firm has been established since the year 1849. They are quick to recognize all metropolitan points on the coast, having branches at Sacramento, Oakland, and Portland, Oregon. The principal place of business is in San Francisco, Cal. The Los Angeles

THE RAYMOND HOTEL.

branch was established at the beginning of the present year by the purchase of the business of Newton Chaplin & Co., the members of which firm are still connected with the business. Whittier, Fuller & Co. own the Pioneer White Lead and Pacific Rubber Paint and Color Works in San Francisco, which employ 150 to 200 hands. The Pioneer White Lead manufactured by them controls the white lead trade of the Coast solely by virtue of its great superiority and fineness as compared with any imported brands. The Pacific Rubber Paint and pure colors ground in oil and Japan, manufactured by them, are acknowledged to be the leading article in that line on the Coast. They are manufacturers of French plate mirrors and are positively the heaviest importers of plate, sheet and window glass in the United States. Their present store is located at 207 North Los Angeles street, Los Angeles. Warehouses for glass, sash and doors at 229 Los Angeles street, and warehouse for the storage of 86° gasoline and 74° naptha on San Fernando street and Downey avenue.

THE MACHINERY FURNISHED BY M. S. BAKER & CO.

No small item in the fitting up of the Raymond Hotel was the furnishing of the machinery, and it is a high compliment to the well known firm of M. S. Baker & Co., Los Angeles, that the contract was awarded to them. The whole of the machinery in the hotel was put in by this firm and included two of the Otis Brothers & Co. Hydraulic Elevators, two forty power Atlas boilers, a



S N GABRIEL VALLEY BANK, PASADENA.

thirty horse power Atlas engine, two large Worthington steam pumps and a ten ton patent ice machine made by J. B. Jordine. They have also put in all the steam heating pipes. That this work has all been well done needs no further guarantee than the reputation which this company has always enjoyed for doing this kind of work well. M. S. Baker & Company have an establishment of which the people of Los Angeles county may justly be proud. In their new quarters on Buena Vista street, to which they will shortly move, their facilities will be still further extended.

W. C. FURREY—ELECTRICAL GOODS, GAS FIXTURES.

To W. C. Furrey of this city was awarded the contract for doing all the plumbing, electric-wiring, tin work and furnishing the gas fixtures for the Raymond. Mr. Furrey's facilities for doing this class of work are the best south of San Francisco, and to him was also awarded the contract for furnishing the patent electrical annunciators and return call system and fire alarm combination in the Nadeau. He has fitted up the Raymond in a most elaborate manner and the way in which the work has been done shows that none but the best workmen were engaged. The fact that Mr. Furrey has been awarded the contract for the two largest hotels in Southern California is sure proof that his house is best prepared to meet all demands in this line.

It may not be out of place here to remark that Mr. Furrey carries one of the largest stocks of hardware and agricultural implements south of San Francisco. He is an extensive manufacturer of well and water pipe and also of gas fixtures, fancy cornices, etc. He is also an extensive dealer in rubber and leather belting, rubber hose, cotton hose, iron pipe, refrigerators, water coolers, etc. As nearly all of these articles are necessary about every large building, it will be decidedly advantageous for parties about to build to go where they can have a large and choice stock of goods to select from.

DOORS AND SASH FURNISHED BY KERCKHOFF, CUZNER & CO.

All the sash, doors, etc., used in the Raymond Hotel were furnished by the lumber and milling firm of Kerckhoff, Cuzner & Co., of this city. This well known company has unequaled facilities for turning out on short notice this class of work. The builder of the Raymond fully appreciated this fact, and states that the firm have fulfilled their contract in a most satisfactory manner. Messrs. Kerckhoff, Cuzner & Co. were the first to establish a branch lumber yard at Pasadena, and they have on hand there a full stock of lumber of all descriptions stored in sheds. They have the largest and most complete stock of lumber in Pasadena, and those intending to build will do well to see them. As to the quality of their material and the manner in which they do their work the Raymond speaks for itself.

PASADENA BUSINESS HOUSES.

Some Thriving Firms in our Sister Settlement.

THE FIRST NATIONAL BANK.

The First National Bank of Pasadena was started about a year ago as a State Bank, but the energetic officers of the institution seeing the wonderful growth of Pasadena felt that a National Bank would sooner or later be a necessity and they wisely concluded to convert the institution into a National Bank which was recently done. This is a home institution and almost the entire stock of the bank is held by the oldest and most substantial citizens of Pasadena. The bank has the unanimous support of all the merchants, farmers, fruit-growers and business men, and its convenience and necessity is unquestionable. Pasadena should be and is justly proud of her progress and having a bank of this kind does much to facilitate her prosperity. The business of the institution has become so large that they are forced to move to more spacious and commodious quarters, and for that purpose they will soon change their locality to a building on the opposite side of the street from their present location. The new building, of which Mr. Ridgeway is the architect, will be made of pressed brick with stone and iron and terra cotta trimmings and will have an ornamental octagon dome and tower. The building will be 70 feet on Colorado street and 120 feet on Fair Oaks street. The bank will front on both of these streets. The building will cost about $30,000, and will be one of the finest fire-proof structures in Pasadena. The bank has three hundred and twenty-five thousand dollars in deposits; a paid up capital of thirty-eight thousand five hundred dollors, and a surplus of three thousand dollars, while the cash on hand and deposited with other banks amounts to $175,000. The government bonds held by the bank amounts to $12,500, upon which is based a circulation of bills amounting to $11,250. The bank has almost 600 customers, and the above showing clearly demonstrates its prosperity as well as the prosperity of the people of Pasadena. The officers of the bank are as follows:

President—P. M. Green.
Vice-President—B. F. Ball.
Cashier—D. Galbraith.
Board of Directors—B. F. Ball, P. M. Green, H. D. Bennett, O. S. Picher, Maj. Geo. H. Bonebrake, J. H. Palmer, John Allen.

"THE SAN GABRIEL VALLEY BANK."

The San Gabriel Valley Bank opened for business in May in its elegant quarters in the Ward Block. The capital stock of fifty thousand dollars has all been subscribed by citizens of Pasadena, and the corporation opens with the assurance of doing a good business. Mr. Frank M. Ward is President, Alonzo Tower, Vice-President, and B. W. Bates, Cashier. The Directors are F. M. Ward, Alonzo Tower, B. W. Bates, C. S. Martin, J. G. Miller, Walter R. E. Ward. A general banking business is carried on. The bank appurtenances are complete and of the best. The fire-proof vault contains a Hall steel safe of the latest pattern, with time-lock and other devices for baffling burglars; the books, bank drafts, certificates of deposit, checks, etc., are of new design and very handsome; and the rooms are both conveniently and luxuriously fitted up. A marked feature of the furniture is the counter, made by Bohrman, of Los Angeles, of black walnut with orange-wood trimmings, which is of the finest in the country. To this is added a fire-proof and burglar-proof vault, with rental caskets for safe deposit of every sort of destructible or articles of small bulk and great value which might easily be stolen.

T. P. LUKENS—REAL ESTATE.

Many a stranger who has visited beautiful Pasadena has been heard to exclaim, "Oh, how I'd like to live here the rest of my days," and of the many who have said so, not a few have taken up their homes in the spot they admired so much. This is, to a very great extent, the manner in which Pasadena has grown so rapidly. Daily we read of people from all parts of the Coast and the Eastern States and Europe going to Pasadena to make it their home, and if the influx of people continues the next year as it has during the past year, Pasadena will soon be to Los Angeles what Oakland is to San Francisco—the sister city and the second largest in the county. It is unquestionably true that great care should be taken in purchasing a home, a ranch or or anything in the real estate line, and it behooves purchasers to deal with a man of experience and one who understands the people as well as the country, and who can make the most advantageous terms for the purchaser. Such a man is to be found in the person of T. P. Lukens, who has been a resident of Pasadena for the past six years. Mr. Lukens has successfully conducted his real estate business for the past five years, and takes a special interest in the welfare of Pasadena and always gives a person a reliable opinion from a business standpoint as to the best course to pursue to obtain a comfortable house or farm. Mr. Lukens deals in all kinds of real estate and has on hand large tracts of land at Long Beach, Puente and Monrovia which can be bought on easy terms. He has also on hand a number of fine orange groves and town lots, some of the former being adjacent to Pasadena. Mr. Lukens is now preparing at a great expense a fine illustrated pamphlet entitled "Pasadena Illustrated." This pamphlet will be very valuable and will contain a description of Pasadena and everything in and about the valley. A "Bird's Eye View" is also being issued of Pasadena by Mr. Lukens. There will be from eight to ten thousand copies of the pamphlet printed and about as many of the "Bird's Eye View." They will be ready in about two months and will undoubtedly be very [illegible]ely sought after.

W. S. ARNOLD—BARGAINS IN REAL ESTATE.

One of the principal real estate agencies of Pasadena is that of W. S. Arnold, Colorado street, Pasadena. Mr. Arnold has houses to let, and makes a specialty of exchanging Eastern property. He has a large list of properties for sale, among them many bargains. Being thoroughly familiar with the country he can give reliable information to customers and will guarantee to suit all who want country property. He has been a resident of Los Angeles county since 1869 and of Pasadena for about two years and a half. There is undoubtedly going to be a great boom at Pasadena the coming fall and winter which means a fine chance to make money easily. It will therefore pay to keep a sharp look-out for bargains. Mr. Arnold has just now some particularly choice properties which will undoubtedly double in value inside of the next twelve months. He solicits correspondence from all parties desiring to invest in San Gabriel Valley lands, and will furnish reliable information about the country free.

CRAIG & HUBBARD.

The above named firm is one of the most reliable in Pasadena. They have a large assorted stock in the general merchandise line and are always careful in the selection of their goods. This firm has by long experience and square dealings built up a reputation that always brings patronage. Besides being dealers in staple and fancy groceries they make a specialty of fine teas, coffees, tobacco and cigars. They also have on hand crockery and glassware and lamps. People who are about to make purchases in their line will do well to call on this house before going elsewhere.

J. W. WOOD'S ESTABLISHMENT.

J. W. Wood, who is one of the leading pharmacists of Pasadena, has a handsome store in the Williams Block. He has constantly on hand a full line of patent medicines. His stock of drugs and medicines are warranted to be of the very best quality. He also carries a stock of toilet and fancy goods. Prescriptions are carefully compounded, and in fact everything is carried on in a manner to give satisfaction to his customers as well as the traveling public.

J. C. FITZHENRY'S STORE, BOOTS AND SHOES.

Among other first-class houses in Pasadena is the boot and shoe store of J. C. Fitzhenry, located in the Postoffice building. Boots and shoes are among the common necessities of life, and on their selection depends to a large extent comfort and the durability of the goods. Great deception is often practiced upon the public by irresponsible firms, who sell the cheapest kind of a shoe for all they can get and never care or expect to see the purchaser again. Of course such firms do not last long, but in order to be on the safe side it is just as well to go to a reliable and well established house. Mr. Fitzhenry has always aimed to please the public as well as his customers, and his goods are purchased only after the most careful selection. Mr. Fitzhenry's motto is to please the public and the business will advertise itself. Mr. Fitzhenry was formerly an old resident of Los Angeles and his many friends in this city are pleased with his success and glad that he is near his old home again. Previous to settling in Pasadena he was for a number of years in the general merchandise business in Tombstone, Arizona. Mr. Fitzhenry has constantly on hand everything in the boot and shoe line. His ladies, misses and childrens shoes are finely finished, while his boots and shoes for gents are above the standard. Mr. Fitzhenry handles Eastern goods exclusively and sells them as cheap as honest business principles will permit.

WILEY & GREELEY LIVERY STABLES.

Among the prominent business houses of Pasadena may be mentioned the Pasadena Livery Stable, of which Wiley & Greeley are proprietors. The stable is located on Colorado street, and is the best appointed in Pasadena. The owners are both men of large experience in the livery business and guarantee satisfaction to all their patrons. They furnish teams and turnouts of all kinds—from a saddle-horse to an eighteen passenger carriage, and their terms are as reasonable as any stable in the county. Their livery stock is of the very best quality and tourists and all others who desire teams will find that this firm furnishes good, reliable horses and first-class buggies and carriages.

This enterprising firm has also a branch at Long Beach, and parties who have gone down to that charming watering place to spend the summer will do well to give them a call. They have the only stable at the Beach of any importance, and in everything in the livery line they may be depended upon. Their telephone number at Pasadena is 10. All who have patronized Wiley & Greeley speak in the highest terms of praise of the firm. They have won in their special line an enviable reputation.

THE GRANITE QUARRY.

Pasadena has among its substantial resources a granite quarry, from which some of the finest rock in the county is obtained. The quarry at present is controlled by P. P. Dahl and George Kane, and is located at what is properly called Devils Gate, which is situated about three miles northwest of Pasadena. Messrs. Dahl & Kane have worked the quarry a little over a year, during which time they have taken out a great deal of material and they say there is still enough left to supply the entire county for many years to come. The stone is of the finest quality and is much sought after by architects and contractors. The color of the granite is very rich and uniform and is free from seams or stains. Pieces as long as eleven and twelve feet have been taken out, and were it necessary, the proprietors assert that pieces as long as fifteen and sixteen feet and four to six feet wide can be obtained. As an evidence of the fine quality of the granite, it would not be out of place to mention that the stone has been used on the Crocker mansion, "The Plaza," the Lan-Franco building and many others.

CATARRH,
Asthma, Bronchitis,
AND ALL DISEASES OF
Head, Throat and Lungs,
TREATED WITH
Medical Inhalations
—BY—
W. N. DAVIS, M.D.,
M. C. P. S. O.,

SPECIALTY:
Diseases of Ear, Nose Throat, Lungs, Diseases of Women, as well as all Chronic Complaints.

CONSUMPTION

Does not begin, as people generally think, with a cough or soreness of the lungs, but usually with debility, weakness, languor, dyspepsia, or catarrh. The most common and most fatal form is that in which tubercles are deposited in the substance of the lungs. These are small cheesy kernels, that usually lie dormant for many months, even for years, showing their presence only by shortening the breath and weakening the frame, and inducing languor and inability to walk fast, or far, or work hard.

The young wife, settling into a decline, leans more heavily on the husband's arm. Once she walked lightly with him step for step; now she leans, and complains that he walks so fast, and puts her all out of breath. She gets better for a while in brighter weather, and then without evident cause sinks lower than before; and thus rises and sinks, perhaps, many times before the tubercles ripen and rot the tissues around them, when she coughs, at first and perhaps for a long time, a dry, hacking cough; then it becomes moist and softer, and she raises matter either yellow or saltish, and perhaps offensive to the taste, or it may be frothy or glairy, like the white of an egg. It is usually looked upon as of no great account, but treated as a common cold, the patient not deigning to call in even the family physician. But even if he is called he is apt to make light of it, and advise some simple thing. The patient waits and hopes, but is annoyed to find she does not get rid of it; thinks it a bad cold, that hangs on worse than any she ever had before; coughs worse evenings and mornings, and fears she has caught more cold, but cannot account for it.

The following are the more common signs of this form of consumption: First, lassitude, or languor, or shortness of breath, with disposition to gasp or sigh or catch for breath. At this stage it is easily cured. If the patient tries the sperometer he finds that he cannot breathe an average amount, perhaps by forty or fifty inches—not that the tubercles fill so much space, but that they weaken the power of inflation and expulsion of air. Young girls, at this stage, are prone to lean on the parasol in walking, as if for a cane to support, and are disposed to loll and sit at ease, for any exertion "puts them out of breath." They like to recline on the sofa, or lounge in a rocking chair. They relinquish many of their previous and more active pleasures, and voluntarily withdraw from the dance, or skating, or amusements requiring lively or vigorous movement, and prefer to look on, rarely dreaming that the time is fast approaching when they shall even look on no more, and the dance and the skates will go on just as merrily perhaps without them. If the lungs be carefully examined with the proper instruments at this stage they sound dull under the hammer, and give no sound at all through the stethoscope over some one spot, more commonly over the middle lobe of the right lung; or instead of absence of the healthy sound, it is changed into a creaking—called crepitation—but very faint.

This sound cannot be detected through the garments, nor through any of them, nor can the dullness be detected through them with the hammer. There is no resort in the practice of medicine more absurd and pernicious than that of pretending to examine the lungs with the fingers of one hand drumming on those of the other over the chest; and what makes it still more worthless is the doing of it over garments that would utterly obscure a much louder sound than the one for which the practitioner is supposed to be listening. Such examinations beguile the patients, until the disease is so deep as to pass all hopes of recovery. Still, up to this time the ordinary duties of life are carried on as usual only with an increasing disposition to rest and sit down while at work, till the patient is often considered "more lazy than sick."

If application be made to a physician in common located practice, he declares after one of those shiftless, faulty examinations with his fingers, that the lungs are all right; only a little irritation of the tubes. Oh, this fatal blindness! The patient returns comforted, and tries, perhaps, some cough-drops or expectorant to loosen the cough, and begins to raise the "phlegm" much more easily; but after a while complains of some nausea after eating, and hollowness when hungry—the early symptoms of dyspepsia, brought on by the depressing cough drops, or troches, or expectorants, which are all made of some drug, which taken in larger doses produce sickness at the stomach as squills, ipecac, lobelia, etc. These expectorants hasten on the disease at a much accelerated rate; and complicate it with others that make it much more difficult to cure. But even at this stage, by a judicious system of inhalation, proper diet, habits, tonics and change of air, it is easily brought under control. We cannot too deeply condemn and deplore the free use of troches, cough drops, and expectorants of all kinds. They hurry many to the grave, and in others induce dyspepsia, rose catarrh or fever, hay asthma and other troubles indicative of a perverted tone of the mucous membrane. In the succeeding stages of the disease the symptoms of the preceding ones are greatly aggravated, and to these are commonly added some or all of the following: In the woman the monthly discharges cease or become scanty; the mind becomes, so to say, capricious, the hopes being at one moment unduly elated, and perhaps the next more depressed and moody, and there is a marked disposition to shed tears over touching scenes and stories, and to laugh heartily at the slightest absurdities or witticisms; the emotions become very sensitive and tender, and this is most observable at night, when a cold, clammy sweat awakens the patient from unquiet sleep, and gives reins to the wildest fancies. The lips are often observed to be purple or black and dry; a flush frequently appears on the cheek; the white of the eye becomes of a mother-of-pearl appearance; the cough deepens and extends from morning till night, and from night till morning, even sometimes continuing through sleep that brings little refreshment; the spit or sputa is salt and yellow and of bad taste, and increases in quantity from time to time, when the patient is said to catch cold; the voice becomes husky or hollow, or unduly sonorous; the periods of exercise grow shorter with the shortening breath, and less and less frequently, the walk of a few rods being sufficient to induce fatigue; the chest becomes tender, even to a slight percussion, and it is now generally conceded that the patient is in a decline, or wasting fever, or perhaps the bold word Consumption is used, and by or before this time the careless examiner—the physician who says consumption cannot be cured—recognizes the foe with which he has so long been dealing, and advises codliver oil, or the super-phosphates, or whisky and cream, or the last fashionable folly in the treatment of this dread disease, and perhaps a change of air to the south, and probably sanctions a plaster to the chest or between the shoulders, or covers these parts with croton oil or tartarized antimony. Oh, it is pitiful to see such helplessness at such a time, the last precious days in which there may be ground for hope! This soon passes; the patient lies later and later from day to day, till finally the whole day is spent in bed; and now the cough is so harrassing and the discharge so copious that the nurse holds up the patient's head that the sputa may be thrown into a cup or bowl; the appetite becomes very capricious, the stomach feeble; probably the tubercles ripen and slough in the bowels, giving rise to persistent and exhausting though mild diarrhœa. There is a constant sense of want of breath that is sometimes called being tired and weary and is attributed to the cough. Even at this late stage the patient will sometimes sit up in bed and write words of love and hope to some distant friend, and make promises of visits and talk of worldly affairs; if a woman, will speak of what she is to wear when she gets well, and how she will dress her hair, etc., and the next minute may be found in tears, as she suspects she may never recover. But why follow this declining life into the deep darkness to which it so swiftly and surely tends? All ground for hope is long since gone. It took years, perhaps, to do the work, but it is done. The reason consumption is so seldom cured is that it is not recognized till its work is so far advanced. Physicians close their eyes to it till too late to mitigate it, or having accidentally cured it, get credit for what they have done.

INHALATION.

For years I have relied mainly for treatment of lung affections on the inhalation of medicated vapors—the drawing of the medicines into the lungs and throat directly upon the breath, and with results so uniformly happy that I probably shall never need to change for any other method.

Experience shows that medicines taken into the stomach do little good in any of these troubles. See what millions are sweeping on every year to the grave from consumption while taking every kind of drug and nostrum that can be suggested by the learned and the unlearned alike! Have we not all seen more than one go down while trusting to codliver oil? I am out of all patience at seeing doctors prescribe this and trust to it and hope for help from it. It only serves to beguile and delude unto death. Yes, it may be helpful in scrofulas, as may any other fat of equally easy digestion. But it does not reach the lungs nor affect them perceptibly for good or ill. So of the various phosphates and tonics. Yes, they help to build up and strengthen; but the part needing most in these affections gets but little, and the poor patient perishes while hoping for help. I wish I could say something better for stimulants—whiskey, brandy and the like. But it is fatal to trust them. True, the patient may hope he is getting be ter, but he is only getting drunk.

Consumption is a delusive disease. It gives many brilliant hopes, even to the sober; how much more so to the intoxicated! No, there is no specific yet known. What are the advantages of inhalation? These: It exercises every part of the lungs, that would otherwise lie dormant, and allow the disease to extend and encroach upon healthy tissue. It carries the medicine, in its purity and strength, unimpaired by digestion, right to the affected part, and thus heals the sore and stimulates the breathing power. The results are that the earlier stages can be cured almost as readily as a common cold, and in the last stage life can be prolonged and comfort given to the patient.

A Familiar Scene.

MRS. JONES: So you still persist in taking that nasty Cod Liver Oil, Mr. Smith. My family doctor prescribed it for me, and after swallowing a dozen bottles of the horrid stuff my cough was much worse than before. My Indiana physician gave me Hypophosphites, but I received no benefit. Hy health is now better than it has been for months.

DR. WHITE,
OF 108 NORTH MAIN STREET,

Is treating me. Why don't you see him? He will give you his honest opinion and cure you, if a cure is possible.

MR. SMITH: I will take your advice, Mrs. Jones. This oil is doing no good. My cough and night sweats are getting worse and my appetite is failing. I have heard of

DR. WHITE'S SUCCESS
IN TREATING LUNG and CHRONIC DISEASES,

And should have seen him before now. This cough is terrible. I must get something that will do me some good. I will see Dr. White this afternoon.

THE NADEAU.

OPENING of SOUTHERN CALIFORNIA'S
NEW FIRST-CLASS HOTEL
TO TAKE PLACE JULY 4th, 1886.

The public generally will be delighted to learn that this house will be open for the reception of guests on the day of our National Anniversary. The Nadeau is a four-story building, and outside of San Francisco the largest hotel on the Pacific Coast.
The Rooms, 200 in number, are large, convenient and elegantly furnished. The fittings and furniture of the house are surpassed nowhere.
The Bridal Chambers, Ladies' Parlor, Ladies' Billiard Parlor and Gentlemen's Reading Room are all beautifully finished and elegantly furnished, affording attractions surpassed by no hotel on the Coast.
The Dining Room is spacious, well ventilated and tastefully furnished. All the arrangements in the Culinary Department have been perfected with the greatest care.
No hotel in America is better provided against accidents from fire. Every room in the house is connected with the office by a fire alarm. The elevator, wide stairways, private dining rooms, large and well furnished sample rooms, halls and verandas ornamented with rare and beautiful shrubs and flowers, and the numerous other attractions make THE NADEAU an establishment highly creditable to the Queen City of the South.

Passengers Coming.

MERCED, Cal., July 10.—Following is a list of the south-bound passengers passing through here this evening:

A W Barrett, Los Angeles; L J Rose, San Gabriel; J D Sheip, Philadelphia; W Van Dyke, Los Angeles; J Stringham, Berkeley; T Prather and wife, Oakland; A A Kline, El Paso; I M Warmcastle and wife, Martinez; T Trumper, Ontario; S Munday, San Francisco; H M Brown, Kansas City.

Though Lost to Sight, to Memory Dear.

Mr. L. M. Holt, proprietor of the Riverside *Press and Horticulturist*, was in the city yesterday. He reports the arrival of M. F. Dyer, late advertising clerk of the HERALD, at that place for the benefit of his health, which had been seriously impaired by being actively engaged in doing nothing. The temperature at Riverside being 104 on the day of his visit must have been consoling to his burdened heart. He left his creditors with a temperature of 83 degrees in the shade in this city, but evidently meant to keep shady himself, and so hied himself to Colton, where he fattened on climate for a few days, but owing to the noise incident upon building a new city he went to San Bernardino, where his services as a journalist were not needed. After becoming revived by the refreshing waters of the flowing wells of that beautiful town he passed over to Riverside to feast his soul on the beauties of that region.

Those who meet him from day to day report him "weeping sad and lonely" waiting for salary day or a sheriff to turn up, and finding peace to his romantic soul meanwhile on the "Ode to Solitude."

His letters at the HERALD office remain unanswered, and his friends experience

"A feeling of sadness and longing
That isn't like being sick,
And resembles sickness only
As a brickbat resembles a brick."

California's Greatest Product.

The greatest product California has yet produced is Fryer's Abietene and combining it with Yerba Santa, Mullein and other expectorants and narcotics (without opium,) it makes a cough remedy that cannot be equaled for coughs, colds, croup, bronchitis, asthma, hoarseness, pneumonia, pleurisy and any and all afflictions of the throat, chest and lungs. Ask C. F. Heinzeman for Fryer's Abietene Cough Balsam and take no other. Price 75 cents.

Death of Charles E. Parker.

Elsewhere will be found a notice of our well known citizens, Charles Edward Parker, who died at his residence, 118 Third street in this city, yesterday morning at the age of 65 years.

Mr. Parker was a native of Delhi, New York, the son of Col. Amasa Parker, of that place, and cousin of Judge Parker of Albany, N. Y. He has been a citizen of Los Angeles for the past nineteen years, and has been held in great esteem by a large circle of acquaintances. His funeral will take place this afternoon at half-past 3 o'clock from his late residence, and will be attended by the Masonic fraternity, of which he was an honored member.

No depressing effects, no nausea from Red Star Cough Cure. Twenty-five cents.

Local News Notes.

Capt. A. W. Barrett will arrive from San Francisco to-day by train.

Mr. L. J. Rose will arrive by the south-bound train this afternoon.

Mr. B. F. Porter, of San Fernando, reports the wheat crop turning abundantly. His own crop is turning 21½ bushels to the acre of wheat and forty bushels of barley, which will yield him a beggarly return of only about 400,000 bushels.

Chas. Eaton gave a reception last evening in his new saloon and billiard parlor, in the Nadeau House, which is, doubtless, the finest appointed affair of the kind in the city. An abundant and choice lunch and a free flow for Bacchus were the order of the evening.

Mr. Sam M. Pickett, who for some time past has been engaged in Lewis Bros'. shoe establishment, leaves to-day for San Francisco where he will engage in similar business. Sam has made many friends during his sojourn in Los Angeles who will regret to hear of his departure.

The newly opened Belmont Hotel is rapidly filling up with boarders, having a regular roster already of thirty at bed and board. With its beautiful and breezy location, comfortable and neatly furnished rooms, and excellent management, this hotel is sure to become a popular place of resort.

Mr. J. W. Hudson takes hold of the editorial throttle-valve of the San Jacinto *Register*, and in the issue of last week announces that he is "not working for glory." After a few years he will find out that all which an editor gets in a small country town in California is glory of a most diaphanous character. His work is hard, his reward seldom or never comes on this side of Jordan.

A strong new law copartnership has just been formed between W. F. Fitzgerald, J. A. Anderson Sr. and J. A. Anderson Jr. They will shortly remove from their present office in the Downey Block to an elegant suite of rooms in the new Stephens Block. Judge Fitzgerald was formerly one of the Associate Supreme Judges of Arizona and Mr. Anderson Sr. is one of the ablest members of the bar of Los Angeles, while his son is full of promise.

The funeral of Charles Keary, whose death occurred yesterday at the County Hospital, will take place to-day at 1:30 P. M., from the undertaking rooms of Orr & Sutch. He was for a long time night clerk at the U. S. Hotel in this city, and afterwards a member of the police force, in which he made a faithful and energetic officer, and during his service received injuries in his head by the brutal assault of ruffians whom he was attempting to jail, from the effects of which he never recovered and which have been the cause of his death. Charley Keary had a generous heart, was an abiding friend, and his faults will be buried with him to-day.

Farmers and Mechanics.

Save money and doctor bills. Relieve your mothers, wives and sisters by a timely purchase of Dr. Bosanko's Cough and Lung Syrup, best known remedy for coughs, colds, croup and bronchial effections. Personal Mention.

J. E. McComas, of Pomona, is in town.

Judge Vandyke is due from San Francisco by the train this afternoon.

Louis Jacobs, the banker of San Bernardino, came to the city yesterday.

Mr. J. A. Woods is visiting San Diego on a business trip of a couple of weeks.

Samuel Davidson, New York City, and T. F. Ray, Cleveland, Ohio, arrived at the Pico yesterday.

Frank Miller, proprietor of the Glenwood Hotel at Riverside, came to the city yesterday.

Mrs. Wm. B. Hunt, a sister-in-law of Ronaldson Hunt, accompanied by her two sons, is in the city and is the guest of her relative.

L. M. Holt, of the Riverside *Press and Horticulturist*, was in the city yesterday. He thinks the orange crop will be moderate but the quality very fine.

Mr. M. Dodsworth went down with his family to Long Beach yesterday in search of cooler breezes than those which are prevailing now in the city.

Hon. Thomas B. Fisher of San Francisco, formerly Chairman of the California Democratic State Central Committee, has been visiting Los Angeles for a few days past.

Mrs. D. H. Murdock and child, San Francisco; C. S. Lemon and wife, National City; H. G. Sturtevant, San Francisco, and S. W. Moore, Pomona, registered at the St. Elmo yesterday.

C. H. Clark and wife have returned from a trip to Bear Valley. Mrs. Clark made a large number of sketches, and Mr. Clark located a gold mine. They will build a residence in Los Angeles.

W. A. Irwin, former superintendent of the famous Standard Mine at Bodie, which within seven years paid its stockholders dividends of nearly four and a half millions of dollars, is in the city.

G. P. Adams, San Francisco; W. J. Miller, Santa Barbara; Henry Anderson, Hartford, Conn.; Jos. E. Millot, Ohio; Alex. E. W. Maro, C. S. R. R., and M. Sauer, A. & P., arrived at the St. Charles yesterday.

Hon. Thomas B. Fisher, a most genial gentleman and talented lawyer of San Francisco, formerly the accomplished Chairman of the Democratic State Central Committee, has been paying Los Angeles a visit of a few days. He will return home by train to-day.

Louis M. Henkelspiel, San Francisco; Dr. Wm. Bogel, New Orleans; J. M. Hawkins, Sacramento; P. James and wife, Anaheim; J. B. Jackson and wife, Omaha; T. Robertson and W. E. Robertson, Portland, Or.; and R. T. Polk, San Francisco, registered to-day at the Nadeau House.

Departures by Steamer.

The steamer Geo. W. Elder sailed south from San Francisco to-day with the following passengers:

Al Moore, Mrs Moore, R A Brown, Mrs E C Harrington, Bell Jones, Miss L Mills, Mrs C Bland, D Ewing and wife, F Hecker, for Los Angeles; Father Ubach, Edward Lisson, Chas Lisson, Miss L D O'Heny, John Currie, A Morales, W O'Herden, for San Diego.

One by One They Disappear.

John C. Brown, who used to shout on the Court House steps as a member of the Holiness Band, became crazy unto death and died on Friday night. Three of the remaining band of disturbers of the peace have been divorced recently, and the number of shouters is growing less. That fact is gratifying to the people living near the Court House, who will soon have a quiet Sunday to themselves.

Fund for the G. A. R.

At the old Armory Hall, corner of Requena and Los Angeles streets, now the headquarters of the G. A. R., the Finance Committee, nearly all of its members being present, held a session yesterday morning to consider the question of how to raise the funds necessary to carry out the programme of entertaining the members of the G. A. R. and their friends who may visit this city during the remainder of this month and the month of August. There was considerable discussion over a proposition made to ask of the County Board of Supervisors and the City Council an appropriation for the purpose, but it was finally voted to raise $5000 by subscription, and A. H. Denker, H. H. Boyce, George H. Bonebrake, W. H. Workman and Walter S. Moore were appointed a committee to solicit subscriptions, and to report at the next meeting, Friday, July 16th at 10 A. M. Mr. I. W. Hellman started the list with $150, and Major Bonebrake and several others followed with $100 each. During the session Mrs. Keyse, Mrs. Dunham and three other ladies representing the Stanton Relief Corps and the W. C. Y. U., of the city and State, preferred a request that no wines or liquors shall be used by the G. A. R. during the visit of their eastern friends. It was decided to refer the matter to the General commanding, with a vote of thanks to the ladies, and an assurance that so far as the committee could do it would favor their request with the General.

Very Well Put.

Why do we defer till to-morrow what we should do to-day? Why do we neglect a cough until it throws us into consumption, and consumption brings us to the grave? Dr. Wm. Hall's Balsam is sure to cure if taken in season. It has never been known to fail. Take it thoroughly according to directions. Persevere until the disease is conquered, as it is sure to be, even if it should require a dozen bottles. There is no better medicine for pulmonary disorders.

Headquarters G. A. R.

The preparations at Old Armory Hall for the reception of the visiting G. A. R. are going on apace. Two large electric lights have been placed in the hall and one outside on the street, and the small rooms adjoining have been lighted with gas. Several tables and 150 chairs are placed in the hall, and pictures, flags and ornamental drapery will be hung on the walls in a day or two. To aid in this the committee would like to receive from citizens possessing them flags, banners, etc., for use until the 1st of September, which will be well cared for and restored to their owners on the 1st of September, to which time the lease of the hall extends. It is the intention of the committee to make the hall as attractive as possible, and free use of it is offered to all societies visiting the city from abroad for the reception of their G. A. R. friends. The telephone number of the hall is 496.

Magical, marvelous, is what all say of St. Jacobs Oil. It conquers pain.

E. J. Campbell, Pure Wines and Liquors.

E. J. Campbell, Pasadena, has a first-class retail liquor establishment on Colorado street. Mr. Campbell is thoroughly familiar with the liquor business, and makes a specialty of pure California wines and brandies. Much native wine and liquor sold here is of inferior quality, and when shipped to the East gives persons who receive it a poor opinion of it. Disappointment can be avoided by purchasing of a reliable dealer, and such Mr. Campbell has proved himself to be. Physicians frequently prescribe wine and brandy for medical use, and it is of the utmost importance when used by invalids that it be pure from adulteration. In order to satisfy every one Mr. Campbell fully guarantees his goods. He also makes a specialty of family trade, and delivers goods to all parts of Pasadena and the adjacent country. By square dealing and keeping the very best quality of goods he has succeeded in building up a very large trade. In addition to wines and liquors he has on hand a full stock of domestic and imported beers, and choice liquors of every description. He has the leading house in the San Gabriel valley.

A Matter

That every druggist in the State should know. The best drug stand in Southern California, Apothecaries' Hall, 231 North Main street, next building to the St. Elmo. R. C. Guirado retiring from business, John C. Bell, the auctioneer, sells on July 15th the whole entire establishment in one lot, at 2 o'clock P. M. Many is the fortune that has been made in this establishment. The chances now are much better than ever before—city constantly increasing.

You Have a Perfect Right,

when you demand a Benson's Capcine Plaster of a druggist, to expect to receive one. Yet there are, we regret to say, a few druggists of the Cheap John variety who will try to persuade you to accept some worthless substitute with a similar sounding name, such as "Capsicin," "Capsicum," "Capucin," "Capsicine," etc., prefixed sometimes with the name "Burton" or "Benton." Cheap John will offer you one of these wretched imitations for half the price of the genuine, as he can well afford to do, its real value being nothing, and its cost but little more. Benson's are the only porous plasters that can be depended upon to cure every ailment subject to external treatment. They are prompt, sure and thorough. Protect yourself against deception by buying of reliable druggists only. The genuine bears the "Three Seals" trademark and has the word "Capcine" cut in the centre.

Don't Give Up Yet.

It doesn't follow that a patient will die because the doctors have "given him up," or that he will recover because they promise to "pull him through." It is never too late to try the great virtues of Parker's Tonic. Mr. Michael Guilfoyle, of Binghampton, N. Y., was cured by it after ten years of unspeakable suffering. Mr. R. W. Mosher, druggist of the same city, certifies that he has sold over one thousand bottles of Parker's Tonic through its reputation for this and other cures.

Change of Base.

The well known jewelry store of Bartlett's has moved from corner First and Spring street to more commodious quarters at 18 West First street. Julius L. Viereck's New Departure.

The establishment of Julius L. Viereck, successor of M. W. Childs, Nos. 209 and 211 N. Los Angeles St., has undergone a general change, and the stock of Richmond and Superior Ranges and cook stoves look as bright as a new dollar. Mr. Viereck has added to the stock a large assortment of agate ware and other cooking utensils which are used in keeping house, and invites the public to call on him, and the lowest prices on first-class goods will be guaranteed. Mr. Viereck is an enterprising gentleman and will undoubtedly meet with great success in his new departure.

The Co-operative Nursery Tract.

Just south of Jefferson, facing and between New Main and San Pedro streets. Free 'Bus leaves 236 N. Main St., Baker Block, daily, including Sunday at 9:30, 12:30 and 3 P. M. Smallest lots 50x119 feet. Price of all lots, $250 each, payable in light monthly installments, without interest. With these lots the owner contracts to furnish the following improvements without extra charge. Ten beautiful dwellings, two inch plank sidewalks on both sides of every street, 4 mast eletric lights and pay for their use for one year. The ground now contains 14-year-old orange trees and bearing vines. The soil is dark and rich, and no adobe. 2½ miles west of river. Streets will be carefully graded, with 65 feet avenues and ten feet sidewalks. There is not a flaw in the property; every lot perfectly level; title perfect. The breeze from the ocean is unobstructed by hills, always fresh and pure. Water best in the county. Main street horse cars will be within one block of tract by Oct. 1st. About July 31st the subscribers names will be drawn to see who can first select their lots with contents, including the dwellings. After the dwellings are selected there are fifteen extra large corner lots to be taken. The owner respectfully refers to the Presidents of the city Banks. Books now open for subscribers.

VILLA RESIDENCES.

Streets all 60 feet wide and graded, with first-class plank Sidewalks on each side. Masts with Electric Lights without charge for one year.

All the streets to be planted with large shade trees. A nursery of 3,500 trees of fine size now on the tract for that purpose.

PAYMENTS

On the Installment Plan. 188 Lots at $390 per Lot. Monthly Payments $20, without interest. First Payment $30.

Last Opportunity for Owner's Bed-rock Prices!

BEAUTIFUL, CENTRAL RESIDENCE PROPERTY

Immediately adjoining the City Centre Tract, Eleventh, Twelfth and Pico Sts. Only 2 Blocks west of Pearl St.

The last, first-class homestead for sale; located in the heart of the city, and level with Main and Spring streets.

Rails now being laid for the Electric Motor Road on Pico street. Cars will be running in sixty days.

Twelve minutes from Postoffice. Street cars to Pico and Pearl streets, within one and a half blocks. Electric Motor Railway past the entire front of these lots. Elegant improvements, streets with planked sidewalks with ornamental trees to be planted the entire length on both sides. Four beautiful villa residences, masts with Electric Lights without charge. Distribution of lots, 6th of November of this year, and all improvements made and possession given at that time. Immediately adjoining the City Centre Tract lots, recently sold to the leading business people of Los Angeles.

The WILLIAMSON TRACT, 188 LOTS.

This offering of first-class lots for residences in the midst of the handsomest improvements in Los Angeles will be the LAST OPPORTUNITY to acquire centrally located lots at the owner's price per acre. Three hundred and ninety dollars is a nominal sum and the payments are extended over one and a half years without interest. The location is within twelve minutes of the Postoffice, with two lines of street cars (the Hellman line and the Electric Motor Railway directly to the property.

The success of the Homesteads of the Southern California Land Company is strictly owing to the low rate at which its properties are placed before the public and the fact that it only offers first-class city locations. This Company points with just pride to the Childs Tract, Columbia Colony, Urmston Tract and the City Centre Tract, the latter immdiately adjoining the present lots.

A new feature of this beautiful property will be the planting of all the streets with large ornamental shade trees. A nursery of 4,500 splendid trees of large size is already on the tract to be set out in the Fall.

Careful gardeners will be employed by the Company to take charge of them for one year.

Four Handsome VILLA RESIDENCES to be erected. They will be all elegantly finished inside in Eastlake style, even to the kitchens. The houses will be 24x43, parlor and chamber, with sliding doors, dining room, large hall, spacious kitchen, bath room and porticoes.

There Are No Narrow Streets and No Side Lots.

Every street is 60 feet wide.

The masts for the ELECTRIC LIGHTS are now being erected. These masts, being four in number on the City Centre and this Tract, will illumine every lot and residence with a flood of light; an ornament, a necessity and a safeguard.

PLANKED SIDEWALKS, four feet wide, with substantial stringers 2x4, will be placed on each side of every street.

Think of the Location, Eleventh to Pico, and but two blocks from Pearl street.

The sale of this tract is on the Homestead plan. The land is sold as an entirety, and delivered over to the subscribers with all

The Improvements of Villa Residences, Planked Sidewalks, Electric Lights, Ornamental Shade Trees, Etc.,

Without further charge than the amount received in the aggregate from the subscribers, each one of whom has a vested right in the entire tract.

The meeting of the subscribers for the distribution of these lots is fixed for November 8th, 1886. They agree to a mode of distribution (according to the Homestead Laws of 1862) on the same plan as that of the Childs Tract, the Urmston Ttract and the City Centre Tract.

The street railway on Pearl street, at the corner of Pico street, is within two block of the tract, and in sixty days Colonel Howland's Electric Motor Road will be completed on Pico street past this entire property.

LEGAL HOMESTEADS.

The best lawyers in Los Angeles state that the Childs Tract, Urmston Tract, City Centre Tract and Williamson Tract Homesteads, conform strictly to the law of the State making a division of the property among the purchasers—each purchaser holding a *vested right* in the whole tract until the meeting for subdivision of interests. je22-tf

An Open Letter!

LOS ANGELES, June 29th, 1886.

MESSRS. PECK & RUGGLES, 236 North Main Street.

GENTLEMEN:—The CHAMPION REFRIGERATOR No. 1, which I purchased of you, has not only fulfilled your representations, but exceeded my expectations, and can most cheerfully recommend it as being the finest dry air and in fact the most economical refrigerator I ever saw. It has thoroughly preserved all meats, fish, milk, game, butter, etc., and all provisions ever placed in it, and I am perfectly satisfied with its workings in every way. Yours very truly,

W. R. HUFF,
